

Senate Vacancy Study Association Metis

For our study association Metis (BSc Philosophy, Politics and Economics) in Utrecht we are looking for a new Senate member. The Senate is a combination of a Supervisory and Advisory Board. Effectively, it advises and controls the Board of the association and functions as a placeholder of the General Assembly throughout the year. Our association was founded in 2019 and has been going through a maturation process since. Similarly, it is our goal to professionalise our Senate. Therefore, we would like to fill the vacancy with someone from outside the association.

Our association is characterized by its high participation rate of members. The BSc Philosophy, Politics and Economics program is an honours program that strives for an active student body that organises academic and intellectual, social and career-related events. Furthermore, the program is international and taught in English.

As a Senate member, you will give the board solicited and unsolicited advice, carry out a mid-year evaluation of the association by talking to stakeholders, assist in choosing the new Board of the association and assist in the Board transition.

In short, we are looking for the following person:

- Experience with the workings of a (study) association, experience with financial responsibilities is a plus
- Affiliation with an international student community
- A professional, constructive and reflexive attitude
- Affiliation with a supervisory and advisory role
- Having a flexible schedule: the majority of the work centers around the preparations for the General Assemblies.
- Willingness to travel to Utrecht for meetings

Being a Senate member takes 1 hour per week on average, is uncompensated and will last until you choose to resign yourself. We are looking for someone who can commit for at least 1.5 year. The current Board and Senate handle the application procedure together, and propose their candidate to the General Assembly.

If you have become enthusiastic and would like to apply, please send your CV and a motivation letter (max 1 A4) to senate@metisppe.nl before the 15th of May 2022. Between the 18th and 20th of May short interviews will be held with the candidates.

If you would like to know more about the Senate and its tasks or about Metis itself, feel free to contact us via senate@metisppe.nl. For more information about [Metis](#) or the [PPE program](#), take a look at their websites.
